Video Surveillance
LUXER

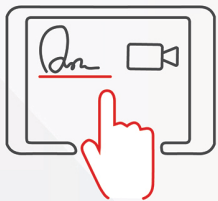

The **Luxer Room** frees your staff from accepting & delivering packages

Using OCR technology on the touch screen station, carriers easily deliver to your controlled access package room.

Residents are notified instantly via text or email that they have a package to retrieve from inside the locked room.

Residents enter a one-time code to unlock the package room door. We capture a signature and picture showing proof of pickup.

KEY BENEFITS

- › Low monthly service fee
- › Video surveillance & access logs for accountability
- › Accessible 24/7
- › Efficient use of small space
- › Scalable for high volume occasions
- › LuxerLens OCR technology scan labels and find recipients instantly
- › Ability to add refrigerator for perishable deliveries
- › Lifetime warranty
- › 99.9% uptime guaranteed

LockerSolutionsSM
Delivered By Luxer One

A DIVISION OF PostalSolutions.

Luxer One lockers are designed to automate 100% of your community's package acceptance

SUPERIOR TECHNOLOGY

LuxerLens uses Optical Character Recognition (OCR) technology to easily scan package labels, highly increasing carrier adoption.

REMOTE ACCESS

The Luxer One App allows residents to receive delivery alerts and open lockers or package rooms remotely using a smartphone.

INDUSTRY'S CHOICE

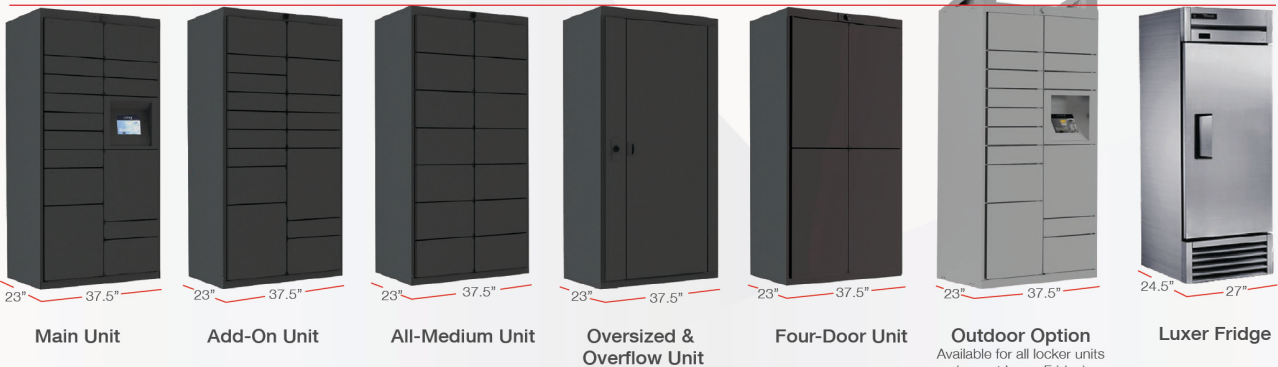

Having sold and installed 600+ Luxer One systems nationwide, to conventional multifamily properties and portfolios, student housing, universities and on-campus P3 projects, we're the industry's choice for Luxer One package management products.
